Dietary supplement on the basis of magnesium enriched with biosignals of selected substances.

Arelesin⁺

Contents: 50 ml

Dietary supplement on the basis of magnesium enriched with RLS* biosignals of selected substances related to appeasing leg muscle cramps and nerve tension.

Magnesium contributes to normal functioning of the nervous system, normal muscle function, and electrolyte balance.

Biosignals are imprinted with the electromagnetic method MOLIT.

* Mark for the biosignals related to feelings of restlessness and tension in the legs.

Directions: recommended daily intake is 30 drops (1.65ml). 15 drops just before sleep, and another 15 drops during the night in case of any sleep disorders. Maximum daily allowance is 60 drops (3.3 ml).

Shake before use. 5 minutes before taking the drops, and right after that do not brush your teeth with a toothpaste, and do not consume any food or liquid except water. When you take the drops, swill them around in your mouth for 1 to 2 minutes before swallowing.

The dietary supplement is not a substitute for varied and balanced diet.

Do not exceed the stated maximum daily allowance.

Keep out of reach of children.

Store in a dark place away from sources of electromagnetic radiation (TV, computer, mobile phone, etc.), and between 1 °C and 25 °C.
